

TIMOTHY OGHENERO JEHWO

Full-Stack Software Engineer | Abuja, Nigeria | Open to Remote & Relocation Worldwide

timmyroyalty@gmail.com | GitHub: github.com/Royal07T | LinkedIn: linkedin.com/in/timothy-jehwo-15b12930a

SUMMARY

Full-Stack Software Engineer with 3+ years of experience building and maintaining production web applications across HealthTech, FinTech, and SaaS. Experienced in Laravel, PHP, Vue.js, MySQL, RESTful APIs, authentication systems, payment integrations, and scalable backend development. Passionate about building secure, maintainable software and using AI-assisted development tools to improve productivity while delivering high-quality code.

EXPERIENCE

DoctorOnTap (HealthTech) – Full-Stack Software Engineer – Remote

Jul 2025 – Present

- Develop and maintain production features for a telemedicine platform serving patients, doctors, pharmacies, and delivery partners.
- Design secure REST APIs that support appointments, consultations, prescriptions, and healthcare workflows.
- Implement authentication, authorization, RBAC, and payment gateway integrations.
- Troubleshoot production issues, optimize backend performance, and improve application stability.
- Collaborate with remote teams and use AI-assisted development tools to accelerate debugging, documentation, and feature delivery. Technologies: Laravel • PHP • Vue.js • MySQL • REST APIs • JWT • Git

Xala Premium – Full-Stack Software Engineer – Remote

Nov 2025 – May 2026

- Develop backend APIs and frontend features for a hotel and event booking platform.
- Build booking workflows, maintain existing modules, and resolve production issues.
- Refactor legacy code and improve application performance.
- Collaborate with engineers to deliver new features and platform enhancements. Technologies: Laravel • PHP • Vue.js • MySQL • REST APIs

Wired Banking Africa (FinTech) – Backend Software Engineer – Hybrid

May 2025 – Dec 2025

- Built backend services supporting merchant wallets, POS systems, and financial transactions.
- Developed secure APIs with authentication, validation, and user management.
- Maintained production services and resolved backend issues. Technologies: Laravel • PHP • MySQL • REST APIs • Git

Methic Technology Ltd – Backend Software Engineer – Hybrid

Feb 2025 – May 2025

- Developed backend modules for a loan management platform.
- Integrated payment gateways and webhook processing.
- Optimized SQL queries and maintained production backend services. Technologies: Laravel • PHP • MySQL • REST APIs

SKILLS

Languages: PHP, JavaScript, SQL

Backend: Laravel, REST APIs, MVC, Eloquent ORM, JWT, Sanctum, RBAC

Frontend: Vue.js, Livewire, Blade, HTML5, CSS3, Tailwind CSS, Bootstrap, React

Database: MySQL, Database Design, Query Optimization

Payments: Paystack, Flutterwave, Stripe, Korapay
